WHY DO YOU NEED A MOVE MANAGER?

Relocation Stress Syndrome (RSS), also referred to as Transition Trauma was recognized as an official diagnosis in 1992. The Holmes-Rahe Stress Scale ranks moving third behind the death of a spouse and divorce in stress related illnesses.

RSS symptoms include depression, anxiety, withdrawal and confusion, which can last from several months to over a year.

At Heritage Home Solutions, we specialize in working closely with the client to reduce RSS and make the transition as smooth as possible. We achieve that by assuring that their personal possessions arrive safely to their new residence and to make sure that they are comfortable in their new surroundings.
